Course Notes

- These courses need not necessarily be taken in the sequence as indicated; the core Commerce courses are often offered several times a year.
- In order to follow the sample sequencing plan, students need to have Pre-Calculus 12 or its equivalent. No Pre-Calculus 12? Contact your Student Advisor to discuss options.
- Students enrolling in any Commerce course with prerequisites are required to have completed all prerequisite courses for that course with a C- or better, or have permission from the Program Chair.
- Students wishing to pursue additional Mathematics courses as electives are advised to choose MATH 100-3 (Calculus I) and MATH 220-3 (Linear Algebra).
- Students wishing to take International Studies courses that are not a language should consider taking both INTS 100 and INTS 210 as these are needed as prerequisites for most upper-level INTS courses. One of these courses will fulfill the pick list and the other will be used towards the International Studies Requirement.
